

Sustainable Development Goals

Goal 6. Ensure availability and sustainable management of water and sanitation for all

- | | |
|---|---|
| 6.1 By 2030, achieve universal and equitable access to safe and affordable drinking water for all | 6.1.1 Percentage of population using safely managed drinking water services |
| 6.2 By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations | 6.2.1 Percentage of population using safely managed sanitation services, including a hand-washing facility with soap and water |
| 6.3 By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally | 6.3.1 Percentage of wastewater safely treated
6.3.2 Percentage of bodies of water with good ambient water quality |
| 6.4 By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity | 6.4.1* Percentage change in water use efficiency over time
6.4.2* Percentage of total available water resources used, taking environmental water requirements into account (level of water stress) |
| 6.5 By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate | 6.5.1* Degree of integrated water resources management implementation (0-100) |
| 6.6 By 2020, protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes | 6.6.1 Percentage of change in the extent of water-related ecosystems over time |
| 6.a By 2030, expand international cooperation and capacity-building support to developing countries in water-and sanitation-related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies | 6.a.1 Amount of water-and sanitation-related official development assistance that is part of a government coordinated spending plan |
| 6.b Support and strengthen the participation of local communities in improving water and sanitation management | 6.b.1 Percentage of local administrative units with established and operational policies and procedures for participation of local communities in water and sanitation management |
